### Shawn Harper

Living proof that a setback is only a set-up for a comeback, former NFL player Shawn Harper is one of the fastest rising speakers in America today. Shawn's unique ability to engage and inspire his audiences stems from his rags-to-riches background that enables him to connect with people from all walks of life. Born and raised in poverty, Shawn Harper overcame the seemingly insurmountable obstacle of four learning disabilities, speech challenges and the lowest GPA in his high school class. Shawn rose from his disadvantages to win several national achievement awards, play on multiple NFL teams, block for two all-pro running backs and serve as CEO of a successful company.
